“With twenty-five years of professional practice, **MEDIAUTOPIA** is founded not on something impossible, illusory, or unattainable, but rather on constant evolution and self-improvement.”

Graham's, 2010

Me Gusta/Glen Moray, Scotland, 2019

Created by photographer and director João Pedro Marnoto, **MEDIAUTOPIA** is a creative visual communication platform that has primarily developed work in the fields of **PHOTOGRAPHY** and **VIDEO**. To this end, it has collaborated with a multidisciplinary group of experienced and dedicated professionals in areas such as **AUDIO, COPYWRITING, DESIGN, PRINTING, ILLUSTRATION, MOTION GRAPHICS, MARKETING**, among others.

Aware of the fundamental role that **STORYTELLING** and **BRAND CONTENT** currently play in the communication of any entity, we work on the concept, create the content, and execute the final products, from classic paper printing to the present reality of digital platforms.

With twenty-five years of professional practice, we have had the privilege of working with entities such as **UNESCO, SYMINGTON** and **RTP** (Portuguese Public Television), and have received distinctions such as **BEST PORTUGUESE DOCUMENTARY** at the Cine'Eco International Environmental Film Festival in Seia (Portugal) and three **GOLDEN AWARDS** from Graphis Advertising Annual (USA).

MEDIAUTOPIA is founded not on something impossible, illusory or unattainable, but rather on constant evolution and self-improvement. Therefore, it is the passion and dedication with which we work that makes it possible to create works of excellence, perpetuating the trust placed in us.

"Luxury of Time", Omdesign/Porto Ferreira, Video, 2016
